

## Prespacetime Journal Volume 5 Issue 9: Fractal Spacetime, Lorentz-Invariant Gravity Cosmological Models (Paperback)

---

By Quantum Dream Inc

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Prespacetime Journal ( PSTJ, // is a publication in which physicists, mathematicians and other learned scholars publish their research results and express their views on the origin, nature and mechanism of spacetime and its possible connection to a prespacetime. It is also a journal where all learned scholars can present their models and experimental results on elemental particles, fundamental forces including gravity and related topics. This is PSTJ Volume 5 Issue 9 first published in September 2014. It is entitled Fractal Spacetime, Lorentz-Invariant Gravity, Cosmological Models and contains following articles: (1) Fractal Space-Time the Dynamic Generation of Mass Scales in Field Theory; (2) Generalized Tanh Method Extended with the Riccati Equation for Solving the Special Types of Nonlinear Equations; (3) The Mathematics of the Gravitational Problems of Lorentz-Invariant Gravitation Theory; (4) C-Field Barotropic Fluid Cosmological Models with Variable Bulk Viscosity Gravitational Constant in FRW Spacetime; (5) Two Fluids Viscous Dark Energy Cosmological Models with Linearly Varying Deceleration Parameter in Self Creation Cosmology; (6) Bianchi Type-I Cosmological Model with Varying  $G$  / Term in Lyra Geometry Self-Creation Theory of...

### Reviews

*A whole new e book with a brand new standpoint. I have read through and i also am certain that i am going to planning to read again yet again later on. I found out this book from my i and dad advised this pdf to learn.*

-- **Audrey Lowe I**

*It is fantastic and great. It is really simplified but unexpected situations from the 50 % in the ebook. I discovered this ebook from my dad and i suggested this book to learn.*
