

Eating on the Wild Side: The Pharmacologic, Ecologic and Social Implications of Using Noncultigens

By Nina L. Etkin

University of Arizona Press. Paperback. Book Condition: new. BRAND NEW, Eating on the Wild Side: The Pharmacologic, Ecologic and Social Implications of Using Noncultigens, Nina L. Etkin, People have long used wild plants as food and medicine, and for a myriad of other important cultural applications. While these plants and the foraging activities associated with them have been dismissed by some observers as secondary or supplementary or even backward their contributions to human survival and well-being are more significant than is often realized. Eating on the Wild Side spans the history of human-plant interactions to examine how wild plants are used to meet medicinal, nutritional, and other human needs. Drawing on nonhuman primate studies, evidence from prehistoric human populations, and field research among contemporary peoples practicing a range of subsistence strategies, the book focuses on the processes and human ecological implications of gathering, semidomestication, and cultivation of plants that are unfamiliar to most of us. Contributions by distinguished cultural and biological anthropologists, paleobotanists, primatologists, and ethnobiologists explore a number of issues such as the consumption of unpalatable and famine foods, the comparative assessment of aboriginal diets with those of colonists and later arrivals, and the apparent self-treatment by sick chimpanzees...
