Excerpt: .constant, then made a determination of the current efficiency at that point, giving us two valuable data for each iron content; namely the ratio ferric to ferrous iron, and the efficiency at that ratio. If he had followed it out to that extent, this table would have been of more value, and I think also would have eliminated those somewhat erratic figures in the last column which do not plot to smooth curves. Referring to page 141, conclusion No. 7; of course that resolves itself on the presence of iron, but he should say the effect of the presence of ferric and ferrous iron, and treat the ferric and the ferrous iron as two separate substances. C. G. Fink: This problem of the effect of iron on the electrolysis of copper is rather complex and there are a number of us who are busily...
